

# QUALITY POLICY

Cox Powertrain Limited aspires to be the market leader in providing world-class high-performance marine diesel outboard engines, designed and manufactured to meet the challenging needs of today's global market.

We will delight our customers by ensuring trouble-free operation of our products and providing exceptional service, maintenance and warranty options.

We are committed to world-wide statutory and regulatory compliance, by continuing to explore new technologies and design solutions relating to safety, fuel efficiency and reliability.

Cox Powertrain's Top Management will achieve these goals by establishing a robust Business Management System that incorporates relevant quality objectives and targets, against which we can measure and improve our customer satisfaction.
